

ACTION-CS ACTIVE DETERRENT UNIT

TRANSFORMS YOUR CAMERA INTO AN ACTIVE DETERRENCE SYSTEM

PATENTED | IP-PROTECTED | MADE IN THE USA

Plug-n-Play Active Deterrence

Pre-assembled units that combine lights, audio, and two-way voice into a patented plug-n-play system —instantly turning any camera into an active deterrent.

Visual Deterrence

High-intensity multi-colored LED strobes
Clearly signal surveillance and intervention
Proven to reduce loitering and break-ins

Audible Response

60W amplified audio
Tiered warnings or custom voice messages
Optional 100W bullhorn for expanded range

Live Voice Intervention

Two-way communication through built-in mic
Remote talk-down from monitoring centers
Real-time engagement that stops crime

How It Works

- 1 Detect - Camera analytics identify real threats**
Camera + VMS detect loitering, intrusion, and suspicious activity in real time
- 2 Trigger - System activates deterrence automatically**
Verified events from the camera/VMS trigger automated responses
- 3 Deter - ADU interrupts the intrusion**
The ADU deploys lights and audio to pressure intruders to leave immediately
- 4 Resolve - Optional monitoring response**
Optional monitoring verifies events and dispatches response

Single Ethernet Connection

Connects using just (1) Ethernet cable, with runs up to 700' when using the Action-CS Ultra Board

Ideal For

High-Traffic Retail | Grocery Lots | Construction & Development Sites | Auto Dealerships | Distribution & Logistics Facilities | Municipal & Public Infrastructure

Compatible With

Hanwha | Axis | Bosch | Avigilon | Pelco | Uniview | i-PRO | Many More...
